

Bermaz Auto Berhad

(5248 | BAUTO MK) Main | Consumer Products & Services

Record-breaking quarter

KEY INVESTMENT HIGHLIGHTS

- **9MFY23 strongly outperforms expectations**
- **Record-breaking quarter driven by strong volumes, sustained margins and higher associate earnings**
- **Strong outstanding bookings underpinned further by new CKDs**
- **FY23F/24F earnings raised +27%/+22%; re-affirm BUY at higher TP of RM3.20**

Smashes estimates. Bermaz Auto (BAuto) strongly outperformed expectations in 9MFY23. The group reported a record-breaking 3QFY23 core net profit of RM88m (+113%oy), which brought 9MFY23 core earnings to RM204m (+160%yoy) – this accounted for 99%/96% of our/consensus full year estimates. Margins, sales volume and associate contribution surprised on the upside.

Solid dividends. In line with the strong earnings, a higher 3rd interim dividend of 4.5sen was declared (+100%yoy), bringing 9MFY23 dividends to 11sen (+159%yoy), representing a 63% payout. This is still slightly short of our 70% payout target, but we expect much higher payout in the final quarter, in-line with the past 2-year trend.

Earnings doubled to a record high. 3QFY23 core earnings was up +113%yoy on the back of stronger revenue (+57%yoy) and margins. Groupwide sales volume rose +47%yoy to 5796 units driven by +41%yoy/+31%yoy/+296%yoy/+4%yoy growth at Mazda (MY)/Peugeot/Kia/Mazda (PH) respectively. Associate earnings more than doubled to RM15m driven mainly by a +71%yoy volume increase at 30%-owned MMSB - the production growth is in-line with strong end-demand for Mazda CKD models (CX5, CX8).

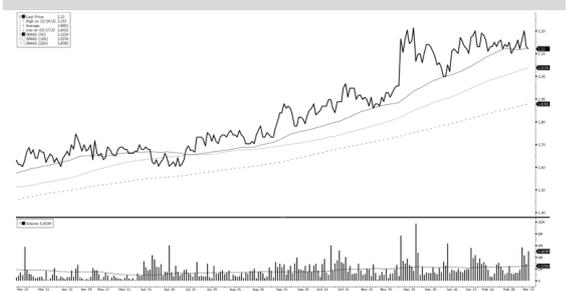

Strong momentum. Outstanding bookings now stand at 6.8K/400/250 units for Mazda/Kia/Peugeot. The outstanding Mazda bookings make up almost half of our revised FY24F Mazda TIV of 15.7K. Of the 6.8K, 21% comprise of Penjana tax-holiday bookings, 37% are on BAUTO's 50% SST rebate campaign and the remaining 43% on normal pricing. FY24F Mazda sales will be further supported by launch of the CKD CX30 this month – some 1.6K bookings have been collected, which is already 27% of BAUTO's aggressive 6K/annum sales target for the model (FY21 CBU CX30 sales: 1924 units). In addition, 80% of existing CBU CX30 bookings have been converted to the CKD variant, which is at normal catalogue price without SST subsidy or Penjana tax holiday. The CKD CX30 is expected to leapfrog to become Mazda's 2nd largest volume driver after the CX5, which generates 7K-8K/annum sales volume. We also gather that BAUTO is negotiating for a 4th Mazda CKD model, which could catalyse volume growth further out. Meantime, the next CKD will be the Kia Sportage (C-segment SUV), expected to be rolled out 2Q-4QCY23.

Earnings revision. We raise FY23F/24F net profit by +27%/+22% to reflect higher groupwide TIV of 19.5K/20.9K, stronger margins given lower A&P expenses offsetting the group's 50% SST rebate campaign (which ran from Jul22'-Dec22'), and higher associate earnings which is in-line with the higher groupwide TIV expectation. We now expect FY23F earnings growth of +67%yoy driven by the Penjana tax holiday, while FY24F is expected to see a further +10%yoy growth on full year contribution of the CKD CX30, though we are cognizant of potential cannibalization of CX5 sales given some overlap in price points.

Recommendation. We re-affirm our **BUY** call on BAuto at higher **TP of RM3.20** (from RM2.67 previously) given the upward earnings revision and as we rollover our valuations to FY24F. Our valuation pegs BAuto at 13x FY24F earnings, at par to its 5-year historical mean. We like BAuto for its above-industry earnings and volume growth (throughout our forecast horizon) driven by recent acquisitions of Kia and Peugeot brands, as well as expansion in its Mazda CKD line-up. Coupled with reasonably undemanding valuation of 8.5x FY24F PER against an expected earnings CAGR of +36% over our forecast horizon, as well as attractive dividend yield (7.5%-8.2%), BAuto remains one of our top picks in the sector. Net cash now stands at RM428m (RM0.37/share). Key catalysts: (1) Sustained earnings improvement for underlying Mazda operations on improving margins and demand recovery, (2) A weaker JPY, (3) Rollout of new Kia and Mazda models - CKDs from 1QCY23F onwards, (4) Budget 2023's BEV duty exemptions which may incentivize consumer take-up of EV models – BAuto is well positioned to capitalize on this with ready EV models from Kia (EV6 & one more compact model to be announced), Peugeot (e-2008 EV) and Mazda (MX30 EV).
